

KANSAS
LOGAN MIZE -
RISING KANSAS SONGWRITER/GUITARIST'S DEBUT IN THE UK
20/10/13

In the midst of his stunning and well-received set in Manchester's impressive Bridgewater Hall, rising country/rock songwriter and guitarist Logan Mize shared with the audience that he had 'never even been to Canada, much less Europe, either to visit or to perform'.

The young Clearwater, KS artist - more recently based in Nashville - performed solo and acoustic in Birmingham, Glasgow, Manchester and London, opening for C&W star LeAnn Rimes as she toured through Europe in late September. He would have begun his international trail in Dublin, but for Ms Rimes' encounter with a severe throat and chest infection which caused her to cancel the first concert of the tour. They were both in fine voice, though, as the artists reached Manchester and London.

There to enjoy the concerts in Manchester's Bridgewater Hall and London's Hammersmith Apollo were travel sector guests of Kansas/Oklahoma Travel & Tourism, with representatives from NATS (North America Travel Service) joining UK & I representative Matt Bates in the north and guests from America As You Like It, Bon Voyage Travel & Tours and Essentially America magazine getting together in the capital.

Audience reaction on both evenings confirmed, and the unanimous verdict of the Kansas/Oklahoma Travel & Tourism party was, that Logan - whose new single 'Used Up' has recently debuted on iTunes and CD - is destined to be a major presence on the C&W / rock scene in the US and Europe. With a memorable mix of acerbic, self-penned lyrics, great tunes and feisty delivery, Logan Mize gels with UK audiences and, according to Matt Bates, "we should look out for his name popping up in forthcoming events news again before too long!"
